How Humanities, Arts and Social Sciences Help Communities Prosper

Professor Peter Lee FTSE
Vice Chancellor
Lismore City Council Welcome
Live Ideas

What is Live Ideas?
Live Ideas turns your ideas into collaborative projects. Live Ideas provides real world opportunities for Southern Cross University students and staff to work with community partners for mutual benefit.

Live Ideas, an initiative of Southern Cross University, is just one way that we enrich communities through the excellence of our graduates and the quality of our teaching and research.

Latest Project
Arts Northern Rivers Creative Internship
Arts Northern Rivers is looking for an Arts Intern to join our team. This is a fantastic opportunity for someone to get started in a career in the arts, and learn the ropes in a small friendly team environment.

Latest Partner
WetlandCare Australia
Our mission is to work with communities to protect, promote and restore wetlands and their catchments. WCA has been doing this since 1991.

Want some more background information on Live Ideas? Check out [www.scu.edu.au/LiveIdeas](http://www.scu.edu.au/LiveIdeas)
the HOME project

- Coverage in local and national media, Radio National and ABC Open.

Official opening
Lismore Street March
Our Good Science

Southern Cross University research presents

The Australian Petroleum Production & Exploration Association (APPEA) from academics that purport to have the latest techniques to environmental impact.

APPEA Chief Operating Officer Eastern Region Rick Wilkie says robust, peer-reviewed scientific research, but cautioned premature research that lacked proper scientific scrutiny.

1. Enrichment of radon and carbon dioxide in the open atmosphere of an
2. Australian coal seam gas field

7. Centre for Coastal Biogeochemistry, School of Environment, Science and Engineering.

8. Southern Cross University, PO Box 157, Lismore, NSW, Australia, 2480
